Before You Read Any Further

ABSLI Fortune Elite Plan is a non-participating unit-linked life insurance plan. All unit-linked life insurance plans are different from traditional insurance plans and are subject to different risk factors. The name of this plan and that of the segregated funds do not in any way indicate the quality of the plan or future returns.

In this plan, the investment risk in the segregated funds chosen by you is borne by you. Segregated funds are subject to investment risks and unit prices may go up or down reflecting the market value of the underlying assets. Past performance is no guarantee of future results.

Your Choices

Basic Premium - is equal to your Annualized Premium which you commit to pay regularly during the premium paying term excluding the taxes, rider premiums and underwriting extra premium on riders, if any. Your Basic Sum Assured will be determined based on the basic premium amount you commit to pay in a policy year.

Basic Sum Assured - is the minimum death benefit payable on the death of the life insured and is equal to 10 times of your Annualized Premium.

Pay Mode - you can pay basic premium in monthly, quarterly, semi-annual, annual instalments. Please ask your Financial Advisor for details about the range of convenient payment methods we offer.

Investment Options - you have a choice to invest your money in the 'Systematic Transfer' Option, 'Return Optimiser' Option or the 'Self-managed' Option. Systematic Transfer Option is for individuals who would like to eliminate the need to time one's investments in the market. Return Optimiser option is for individuals who would like to have optimal participation in the capital markets while safeguarding their returns from any market related volatilities. Self-managed Option is for individuals who would like to have control over their investment.

You may wish to invest additional amounts as top-up premiums anytime during the policy term as long as all due basic premiums have been paid. The minimum top-up premium is Rs. 5,000 and at any point the total top-up premiums paid cannot exceed the total basic premiums paid to date. Top-up premiums cannot be withdrawn for five years unless in case of complete surrender of the policy. Top-up Sum Assured will be 125% of the top-up premium being paid

Your Sum Assured⁽¹⁾ under the plan is the total of Basic Sum Assured and Top-up Sum Assured.

The Basic Premium and any Top-up Premium net of premium allocation charges will be used to purchase units in the various segregated fund/s offered under this plan and as chosen by you. The units purchased in the segregated fund is the monetary amount allocated to the segregated fund divided by its then prevailing unit price.

Basic Fund Value is equal to the number of units pertaining to basic premiums allocated to the segregated fund/s chosen by you multiplied by its then prevailing unit price

Top-up Fund Value, if any is equal to the number of units pertaining to top-up premiums allocated to the segregated fund/s chosen by you multiplied by its then prevailing unit price

Policy Fund Value under this plan is the total of Basic Fund Value and Top-Up Fund Value, if any. The Policy Fund Value represents the total value of your investments to date and is the balance of all units allocated to the segregated fund/s chosen by you multiplied by its then prevailing unit price.

⁽¹⁾Basic Sum Assured is reduced for partial withdrawals as explained later.

Please refer to detailed brochures on riders, consult your financial advisor or visit our website for further details.

Your Investment Options

Under ABSLI Fortune Elite Plan, you decide how to invest your premiums in one of the three investment options - Systematic Transfer Option, Return Optimiser Option or the Self-managed Option. Systematic Transfer Option is for individuals who would like to eliminate the need to time one's investments in the market. Return Optimiser option is for individuals who would like to have optimal participation in the capital markets while safeguarding their returns from any market related volatilities. Self-managed Option is for individuals who would like to have control over their investment.

At any time after one year while your policy is in effect, you can change your investment option.

Systematic Transfer Option

The Systematic Transfer Option safeguards your wealth against the market volatilities and is available only if you have opted for annual mode. Under the Systematic Transfer Option, your premium (net of premium allocation charge) shall be first allocated to Liquid Plus Fund option and thereafter monthly 1/12th of the allocated amount shall be transferred to a segregated fund(s) of your choice. You may choose up to a maximum of four segregated fund (s) out of Income Advantage, Enhancer, Creator, Maximiser, Multiplier, Super 20, Value & Momentum and MNC for your premiums to be transferred to. The transfers to your chosen segregated fund(s) will take place monthly on 1st, 8th, 15th or 22nd of the month as selected by you.

This option helps mitigate any risk arising from volatility and averages out the risks associated with the equity market, reducing the overall risk to your portfolio.

For example – if person A aged 35 years, opts for Systematic Transfer Option with transfers on 15th of every month to Super 20:

Premium/s net of premium allocation charges will be allocated in Liquid Plus Fund and thereafter on 15th of every month, 1/12th of initially allocated amount shall be automatically transferred to Super 20 Fund.

Return Optimiser Option

The Return Optimiser Option enables you to take advantage of the equity market, protect your gains from the future market volatility and create a more stable sequencing of investment returns.

Under this option all your Basic Premiums (net of allocation charges) are invested in Maximiser Fund and it will be tracked every day for each policyholder for a pre-determined upside movement of 10% or more over the net invested amount (net of all charges).

In the situation where the gain from the Maximiser Fund reaches 10% or more of the net invested amount, the amount equal to the appreciation will be transferred to the Income Advantage Fund at the prevailing unit price. This ensures that your gains are protected from any future market volatilities.

While the gain is less than the pre-determined upside movement of 10%, the Fund value will continue to remain in the Maximiser Fund and no transfers will be made to the Income Advantage Fund.

The Return Optimiser Option can be explained with the help of an example as below:

For Age 30, Male, Premium – ₹100,000, Sum Assured Option – 100%, Policy Term – 20 years. At the end of the third policy year,

Total Premiums Paid (invested in Maximiser Fund)	₹3,00,000
Less charges deducted from Maximiser Fund (Premium Allocation Charge, Policy Administration Charge, Mortality Charge and GST)	₹22,676
Net amount lying in the Maximiser Fund	₹2,77,324

Suppose the Policy fund value is now ₹3,10,000 which is higher than ₹3,05,056 (i.e. 110% of the net invested amount of 2,77,324) then ₹32,676 (i.e. 3,10,000 – 2,77,324) will be transferred to Income Advantage Fund. If the Policy fund value is less than ₹3,05,056 then there will be no transfer to Income Advantage Fund.

Self-managed Option

Self-managed Option gives you access to our well established suite of 16 segregated funds, complete control in how to invest your premiums and full freedom to switch from one segregated fund to another.

Our 16 segregated funds range from 100% debt to 100% equity to suit your particular needs and risk appetite – Liquid Plus, Income Advantage, Assure, Protector, Builder, Enhancer, Creator, Asset Allocation, Magnifier, Maximiser, Multiplier, Super 20, Pure Equity, Value & Momentum, MNC and Capped Nifty Index. If you wish to diversify your risk, you can choose to allocate your premium in varying proportions amongst the 16 segregated funds. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to any segregated fund be in increments of 5%, ranging from 5% to 100%.

To meet your ever changing investment needs, you have full flexibility to redirect future premiums by changing your premium allocation percentages at any time. You also have full flexibility to switch monies from one investment fund to another at any time provided the switched amount is for at least ₹5,000.

You can change from one investment option to another investment option anytime after the first policy year. You can switch to Self-managed Option or Systematic Transfer Option during the policy term, however switching to the Return Optimiser Option is not allowed. Switching to Systematic Transfer Option from Self-managed Option is allowed only at policy anniversary.

Terms and Conditions

Policy Discontinuance

Throughout the Policy Term, you are given a grace period of 30 days (15 days in case your basic premium is paid on a monthly basis) to pay the due premium, during which all the benefits will continue with the deduction of charges.

If we do not receive the entire due installment premium by the end of the grace period, the following provisions shall apply:

(A) Discontinuance of the policy during the first five policy years.

- a) Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium anytime during the first five policy years, the Policy fund value after deducting the applicable discontinuance charges as below shall be credited to the discontinued policy fund and the risk cover, if any, shall cease.
- b) All such discontinued policies shall be provided a revival period of three years from due date of first unpaid premium. On such discontinuance, ABSLI shall communicate the status of the policy, within three months of the due date of first unpaid premium, to the policyholder and provide the option to revive the policy within the revival period of three years.
 - i. In case the policyholder opts to revive but does not revive the policy during the revival period, the policy fund value in the discontinued policy fund shall be paid to the policyholder at the end of the revival period or lock-in period whichever is later. In case of revival period ending after lock-in period, the policy fund will remain invested in the discontinued policy fund till the end of revival period. The Fund management charges of discontinued policy fund will be applicable during this period and no other charges will be applied.
 - ii. In case the policyholder does not exercise any option as set out above, the policy shall continue without any risk cover, if any, and the policy fund value shall remain invested in the discontinued policy fund. At the end of the lock-in period, the policy fund in the discontinued policy fund shall be paid to the policyholder and the policy shall terminate.
 - iii. However, the policyholder has an option to surrender the policy anytime and the policy fund value in the discontinued policy fund shall be payable at the end of lock-in period or date of surrender whichever is later.

The income earned in the Linked Discontinued Policy Fund net of fund management charge of 0.50% per annum will be subject to minimum guaranteed interest rate as prescribed by IRDAI. Currently such minimum guaranteed interest rate is 4% per annum.

Where the policyholder revives the policy, the policy shall be revived restoring the risk cover, along with the investments made in the segregated funds as chosen by the policyholder, out of the discontinued policy fund, less the applicable charges as below.

ABSLI, at the time of revival:

- i) Shall collect all due and unpaid premiums without charging any interest or fee.
- ii) Shall levy policy administration charge and premium allocation charge as applicable during the discontinuance period. No other charges shall be levied.
- iii) Shall add back to the policy fund, the discontinuance charges deducted at the time of discontinuance of the policy.

In situations as per the policy discontinuance provision, where the company has transferred the policy fund value net of discontinuance charge to the Linked Discontinued Policy Fund, the policy fund value will be immediately released to the nominee in case of earlier death of life insured.

(B) Discontinuance of the policy after completion of five policy years:

- a) Upon expiry of the grace period, in case of discontinuance of policy due to non-payment of premium after lock-in period, the policy shall be converted into a reduced paid up policy with the paid-up sum assured i.e. original sum assured multiplied by the total number of premiums paid to the original number of premiums payable as per the terms and conditions of the policy. All charges as per terms and conditions of the policy shall be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid up sum assured only.

Addition / Closure of Investment Fund

With the approval from the IRDAI we may from time to time add new segregated funds under your policy. We will inform you of such addition no later than 60 days after it is made available under your policy.

With the approval from the IRDAI we may at any time close a segregated fund available in your policy. We will inform you in writing of such closure no later than 60 days before we actually close the segregated fund.

Unless we receive specific instructions from you by the time we close the segregated fund, all units in the segregated fund will be switched to the most conservative segregated fund then available in your policy. Income Advantage is currently our conservative segregated fund. However, we can declare from time to time another segregated fund as the most conservative in your policy.

Allocation / Redemption of Units

On each business day, the instructions for investing in or encashing units from a segregated fund must be received and accepted by 3.00 p.m. Instructions accepted by us up to the cut-off time are executed using the unit price determined at the end of that business day. Instructions accepted by us after the cut-off time will be executed using the unit price determined by us at the end of the next business day.

Instruction to invest is deemed accepted by us when we receive cash, demand draft or local cheque at any of our offices by duly authorized officials. For outstation cheque, instruction to invest is deemed accepted by us only on the day we receive credit in any of our bank accounts.

The number of units allocated equals the monetary amount invested in a segregated fund divided by its unit price at that time. Units are allocated when we receive a premium, when guaranteed additions are added to the Policy fund value or when we execute your request to switch units from another segregated fund (as applicable to your policy).

The number of units redeemed equals the monetary amount encashed from a segregated fund divided by its unit price at that time. Units are redeemed when we execute your request for a partial withdrawal or when we execute your request to switch units to another segregated fund (as applicable to your policy).

On each monthly processing date, policy charges will be covered by redeeming units from all segregated funds under your policy in proportion to their value at that time.

Unit Price

On each business day and for each segregated fund, we determine the unit price by dividing the net asset value (NAV) of the segregated fund at the valuation time by the number of units in existence for the segregated fund in question. We publish the unit price of all segregated funds on our website www.adityabirlasunlifeinsurance.com

The net asset value (NAV) is determined based on (the market value of investments held by the fund plus the value of any current assets less the value of any current liabilities & provisions) divided by (the number of units existing at valuation date before creation or redemption of any units).
